Welcome to the candidate information pack for the Durham Dales, Easington and Sedgefield CCG Career Start Scheme.
Welcome from the Clinical Chair

We are delighted to be coming into our second Career Start Scheme for GPs in the Durham Dales, Easington and Sedgefield (DDES) CCG area. We have 10 salaried GP posts available, which will be hosted within individual practices across our CCG area. For the first two years, DDES CCG and HENE will jointly fund the posts to enable each GP to be released from practice to focus on their clinical and personal development. You will also be supported to attend additional educational activities and receive mentorship. 

Good luck with your application.

Dr Jonathan Smith – Clinical Chair

Our area

NHS Durham Dales, Easington and Sedgefield Clinical Commissioning Group (CCG) was authorised as a statutory body in February 2013.

We are made up 40 member GP practices and serve a population of around 272,000 spread across a large and diverse geographical area. Clinical commissioning means that local GPs are using their knowledge about healthcare to develop services that meet patient needs.
Our Localities

**Durham Dales**
- 12 GP practices
- Population of 90,500 covers 1,400 square kilometres
- Small urban areas and many large rural areas
- Main towns are Bishop Auckland and Barnard Castle

**Sedgefield**
- 11 GP practices
- Population of 87,700 covers 217 square km
- Sits between Durham City and Darlington
- Majority of the population live within the towns of Newton Aycliffe, Spennymoor, Shildon and Ferryhill
- Some small villages and coalfield communities in the more rural eastern area

**Easington**
- 17 GP practices
- Population of 94,000 covers 145 square km
- Mixture of urban and rural areas
- Two main towns of Seaham and Peterlee have populations over 20,000
What do our existing GP Career Starters say about the scheme?

“I joined the scheme because it seemed like a good way to bridge the gap between GP training and becoming a qualified GP and wanted to my knowledge in certain areas, to provide me with more knowledge of partnership and also possibly develop a specialist interest.”

“The scheme supports my aspirations very well and I get regular mentor sessions with one of the partners every month or so which is useful for generally asking questions but also specific trouble shooting e.g. how to complete admin or coding.”

“I would definitely recommend the scheme.”

Summary of role and purpose

You will become a key member of the team in the general practice that hosts you during the course of your placement. You will manage your own case load and deal with a wide range of health care needs in primary care. You will work with your clinical and non clinical colleagues to ensure the highest standards of care are offered to all registered patients. You will also get the opportunity to contribute to planning and decision making as a part of the wider practice team.

This post is particularly suitable for those who have recently completed general practitioner vocational training, and is designed to develop skills, confidence and experience in a supportive, developmental environment where you will be allocated protected time for education and given mentor support for the duration of the placement.

The employer will be the practice you are placed at and as such you will need to comply with their employment policies and procedures. For those candidates requiring VISA sponsorship, you will additionally be required to comply with the Skilled Workers Code of Practice (April 2015) throughout your time on placement.
Main duties and responsibilities

Clinical responsibilities

Generally, you will be expected to undertake all the normal duties and responsibilities associated with a General Practitioner working within primary care including;

- Making professionally autonomous decisions in relation to presenting problems
- Receiving patients with undifferentiated and undiagnosed problems and making an assessment of their health care needs
- Consulting with patients in the surgery, at home and via telephone (or on online systems – agreed between the practice GP’s)
- Undertaking triage calls, visits and checking / signing repeat prescriptions
- Handling queries, paperwork and correspondence in a timely manner as needed
- Screening patients for disease risk factors and early signs of illness
- Developing plans for health in consultation with patients and in line with current practice disease management protocols
- Providing coaching and health education as necessary
- Admitting or discharging patients to and from caseload and referring them to other care providers internally and externally as appropriate (and in line with practice protocols)
- Complying with all relevant clinical governance and practice policies and protocols.
- Developing appropriate systems to manage common chronic medical conditions
- Completing clinically related administrative and non clinical duties needed for the delivery of the service
- Recording clear and contemporaneous consultation notes to agreed standards
- Demonstrating commitment to lifelong learning, and audit and effectiveness to ensure evidence based best practice
- Providing active input to the wider primary healthcare team in the process of health needs research/ base line data collection/clinical audit
- Compiling and issuing computer generated acute and repeat prescriptions, prescribing in accordance with practice/DDES CCG prescribing formulary whenever this is clinically appropriate
- Networking with other agencies (both statutory and voluntary) and developing links to further develop the work of the practice and DDES CCG
• Meeting professional learning and CPD requirements
• Developing effective relationships with clinical supervisor/mentors and other colleagues

Practice Responsibilities
• Recording data in patient records systems promptly, accurately and to agreed standards
• Ensuring appropriate use of codes
• Contributing to the collation of statistics for practice reports, performance monitoring and audits
• Participating in the auditing of practice activity as required
• Contributing to the strategic management and development of the practice
• Providing reports to both NHS and non-NHS agencies as required
• Taking responsibility for the health and safety of yourself and others by reporting and actively co-operating with practice and CCG Health and Safety policies and procedures
• Processing and actioning incoming patient and hospital correspondence
• Attending in-house meetings, significant event audit meetings and other meetings as necessary
• Ensuring the practice complaints system is adhered to at all times
• Awareness and compliance with all relevant guidelines e.g. data protection, confidentiality, and health and safety
• Maintaining current CPR and anaphylaxis certification and child/adult safeguarding training in line with local policies

Training and Development
• Establishing (in conjunction with your mentor) an appropriate training and development plan that supports your clinical, leadership and business administration development
• Fully participating in training and development and meeting all the requirements of any courses funded, or part funded by the CCG or practice
• Engaging in a programme of ongoing support and feedback to maximise the benefit of the training and development plan
• Promoting and participating in the development and operation of a peer support network with other Career Start GPs
Confidentiality

In the course of seeking treatment, patients entrust us with, or allow us to gather, sensitive information in relation to their health and other matters. They do so in confidence and have the right to expect that staff will respect their privacy and act appropriately.

In the performance of the duties outlined in this job description, the post holder may have access to confidential information relating to patients and their carers, practice staff and other healthcare workers. They may also have access to information relating to the practice as a business organisation. All such information from any source is to be regarded as strictly confidential.

Information relating to patients, carers, colleagues, other healthcare workers or the business of the practice may only be divulged to authorised persons in accordance with the practice policies and procedures relating to confidentiality, and the protection of personal and sensitive data.

Health and Safety

The post holder will assist in promoting and maintaining their own and others’ health and safety and security as defined in the Practice Health and Safety Policy to include:

- Identifying the risk involved in work activities and undertaking such activities in a way that manages those risks
- Using appropriate infection control procedures particularly those relating to needlestick injuries, maintaining work areas in a tidy and safe way and free from hazards
- Ensuring that all accidents or dangerous accidents are reported and investigated, and follow up action taken where necessary

Equality and Diversity

The post holder will support the equality, diversity and rights of patients, carers and colleagues to include:

- Acting in a way that recognises the importance of peoples’ rights, interpreting them in a way that is consistent with current legislation
- Respecting the privacy, dignity, needs and beliefs of patients, carers and colleagues
- Behaving in a manner which is welcoming to and of the individual, and is non-judgemental and respects their circumstances, feelings, priorities and rights
Quality

The post holder will strive to maintain quality within the practice, and will:

• Alert other team members to issues of quality and risk

• Assess own performance and take accountability for own actions, either directly or under supervision

• Contribute to the effectiveness of the team by reflecting on own and team activities and making suggestions on ways to improve and enhance the team’s performance

• Work effectively with individuals in other agencies to meet patients’ needs

• Effectively manage own time, workload and resources

Communication

The post holder should recognise the importance of effective communication within the team and will strive to:

• Communicate effectively with other team members

• Communicate effectively with patients and carers

• Recognise people’s needs for alternative methods of communication and respond accordingly
Are you the right person for us?
